STEERING COMMITTEE MEETING NO 3

SMARTNET
THE MULTIPLIER

**Technical Assistance for
A Smart Network for Technology Transfer and Commercialisation
with Funnel Model SMARTNET
TR14C2.2.05-04/001
EuropeAid/140284/IH/SER/TR**

16 June 2023, Istanbul

This project is co-financed by the European Union
and the Republic of Türkiye

CONTENT OF THE PRESENTATION

1. Welcome Remarks
2. Presentation by the Team Leader
 - *General overview about SMARTNET Project*
 - *Project Progress – Brief on activities and tasks completed and ongoing*
 - *Planning – Brief on activities planned to be implemented*
1. Other discussion items
2. Closing Remarks

This project is co-financed by the European Union
and the Republic of Türkiye

Overall Contract Information

- **Name of the Project:** *Technical Assistance for A Smart Network for Technology Commercialisation with Funnel Model SMARTNET*
Transfer and
- **Duration :** 36 months
- **Contract Value:** 2,498.000 EUR
- **Type of the Contract:** Global Price
- **Contracting Authority:** Ministry of Industry and Technology - Directorate General for European Union and Foreign Affairs
- **End Recipient of Assistance (ERA):** Yıldız Technical University
- **Project Partners:** Istanbul Technical University (Istanbul)
Gebze Technical University (Kocaeli)
Hasan Kalyoncu University (Gaziantep)
- **Contractor-Consortium Leader:** SwanLeuco Consulting (Turkey)

This project is co-financed by the European Union
and the Republic of Türkiye

Objective and Purpose of the Project

Overall objective:

Increasing qualified intellectual properties (IP), technological products and service capacity, commercialization, and export potential of Turkey by improving efficiency and cooperation among TTIs.

Purpose:

Establishing effective cooperation between TTIs for development of technology transfer and commercialization activities through artificial intelligence based smart network and technology acceleration application.

Results:

- 1.TTI Network** was established, and the **institutional infrastructure** was developed,
- 2.Acceleration, Commercialization and Accessing Funds** realized with Pilot Application.

This project is co-financed by the European Union
and the Republic of Türkiye

What does
SMARTNET Project
mean to us?

- ❑ More cooperation,
- ❑ More collaboration,
- ❑ More consolidation,
- ❑ More commercialization,
- ❑ More internationalization,
- ❑ More open innovation,
- ❑ More deal-flows,
- ❑ More unicorns,
- ❑ And imagine all these multiplied with artificial intelligence.

This project is co-financed by the European Union and the Republic of Türkiye

MENA DEALS LEAGUE IN 2023-Q1

- In Q1-2023, **\$56 million** were invested across **55 deals** in seed, early and later vc stages.
- Including the **\$11 million** Metatime crypto token deal, the total amount reached **\$67 million**.

YEARLY ANGEL & VC DEALS IN TÜRKİYE

- Despite the recent establishment of many VCIFs (GSYF) and the launch of crowdfunding platforms, investments have declined significantly at every stage.
- The main reasons for this could be the **global downturn** and delayed investments due to the **earthquake disaster** in February.
- The abundance of money at the pre-seed and seed stage is not yet reflected in the later stages. For this reason, many experienced funds in Türkiye have shifted part of their funding and mandates to Europe for Series A and beyond.

TÜRKİYE YEARLY DEAL (\$) ACTIVITY BY STAGES

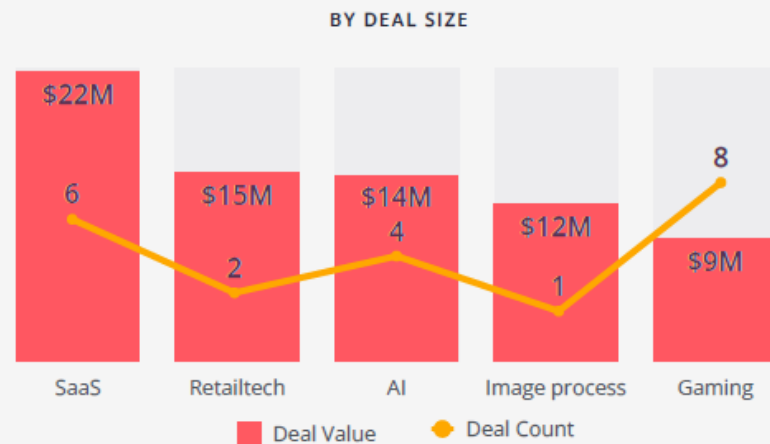

STAGES	2018	2019	2020	2021	2022	2023*

PROGRESS UP TO DATE SINCE THE LAST SCM

Activity / Component 1

- ❖ Smartnet Software has been operationalized – MIS and Web Portal have become functional.
- ❖ E-learning platform has been installed.

Activity / Component 2

- ❖ Feasibility study for Establishing a National Angel Investment Fund was produced.

Activity / Component 3

- ❖ Online communication events were organized.
- ❖ Social Media content has been developed.

Reporting and Meetings

- ❖ 1st Interim Report of the project was submitted with Annexes.
- ❖ 2 Monthly Management Meetings were held.
- ❖ 4 Weekly meetings were organized.
- ❖ 1 Admin order was approved to re-schedule activities.

This project is co-financed by the European Union
and the Republic of Türkiye

WORKSTREAM I: Design and Development of the SMARTNET Platform

This workstream covered the design and development activities of the SMARTNET Platform in line with the requirements stated in the Terms of Reference, and consisted of the following sub-activities:

- ✓ Activity 1.1.0: Initiation - *Inception Activities*
- ✓ Activity 1.1.1: Requirements Lifecycle Management - *Needs analysis and assessment*
- ✓ Activity 1.1.2: Technical Design - *Designing the software*
- ✓ Activity 1.1.3: Implementation - *Application development*
- ✓ Activity 1.1.4: Testing - *Data entry and testing*
- ✓ Activity 1.1.5: Training - *Delivery of trainings*
- ✓ Activity 1.1.6: Release - *Deployment of application*

This project is co-financed by the European Union
and the Republic of Türkiye

Activity A.1.1. Development of TTI Network Software Platform

Component 1 – MIS Software:

Completed the development of the Management Information System (MIS) that will act as the commercialisation automation software and a management decision support system that coordinating the transfer of technology and commercialisation activities and providing a mutual information flow in the network, with the following list of modules:

- ✓ Module 1: Entrepreneurs management
- ✓ Module 2: Mentors management
- ✓ Module 3: Investors management
- ✓ Module 4: IP management
- ✓ Module 5: Integration web services
- ✓ Module 6: Artificial intelligence and decision support
- ✓ Module 7: Standard and custom reporting
- ✓ Module 8: System management and administration

This project is co-financed by the European Union
and the Republic of Türkiye

Activity A.1.1. Development of TTI Network Software Platform

Component 2 – Web Portal:

Completed the development of the Web Portal that serves as a communication tool, providing media-rich and interactive information on the events, activity calendars, announcements, and calls while also providing the capability of receiving applications (e.g., for calls, event/training participation) of the portal visitors, consisting of the following modules:

- ✓ Module 9: Content Management and Publishing
- ✓ Module 10: E-Learning

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.0. Initiation - *Inception Activities*

During the inception period, alongside the Inception Report (IR) the Consultant presented a detailed Technology Selection Document (TSD) specifically addressing the technologies involved in development and delivery of the SMARTNET Platform solution liaising with the relevant stakeholders from the ERA covering the Software Technologies, Development Language and the Database Platform.

RELEVANT DELIVERABLE:

- ✓ Technology Selection Document (TSD)

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.1. Requirements Lifecycle Management - *Needs Analysis and Assessment*

Consultant working in coordination and cooperation with the ERA, conducted the needs analysis activities for the system requirements, platform design conducting interviews with the key staff of ERA and its partners and target groups.

RELEVANT DELIVERABLES:

- ✓ Software Requirements Specification (SRS)
- ✓ Test Specifications (TS)
- ✓ Minutes of meetings, participant lists and any other relevant documents.

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.2. Technical Design - *Designing the Software*

The Consultant, using the outputs of the need's assessment activity conducted in close collaboration with the stakeholders identified during inception, prepared technical design documents based on the high-level design and the solution requirements, including the database design.

RELEVANT DELIVERABLES:

- ✓ Software Design Descriptions (SDD)
- ✓ Database Design Document (DDD)

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.3. Implementation - *Application Development*

The Consultant, using Agile Scrum software development and maintenance methodology implemented, built, and tested the bespoke SMARTNET Platform by translating the requirements and design into source code and verifying the results by successfully executing the defined test cases for each sprint.

RELEVANT DELIVERABLES:

- ✓ Well-functioning SMARTNET Platform: MIS, Web Portal and E-learning components.
- ✓ Source Code (SC)
- ✓ Preliminary User Guides (P-UG)

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.4. Testing - *Data Entry and Testing*

The Consultant prepared a Test Plan covering Alpha and Beta tests for the designed modules and functionality. Following the alpha and beta testing stages, the Consultant implemented a security penetration test complying with OWASP Application Security Verification Standards.

RELEVANT DELIVERABLES:

- ✓ Test Plan (TP) covering Alpha and Beta Tests
- ✓ Alpha Test Results (ATR), Beta Test Results (BTR)
- ✓ Penetration Test Plan (PENTEST-P), Penetration Test Results (PENTEST-R)
- ✓ Data Entry Activities of Entrepreneurs/SMEs, Mentors, Intellectual Properties.

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.5. Training - *Delivery of Trainings*

The Consultant prepared a training programme tailor-made for each target group and commenced the training activities for User and Administrative Trainings.

RELEVANT DELIVERABLES:

- ✓ Training Plan Document (TPD)
- ✓ Training activities held for at least 8 system administrators, 100 beneficiary users
- ✓ Training materials prepared both in Turkish and English
- ✓ User manuals of the software in Turkish and English
- ✓ System admin manuals in Turkish & English
- ✓ Public portal admin manuals in Turkish& English
- ✓ Signed participant lists, screenshots and other relevant documents.

This project is co-financed by the European Union
and the Republic of Türkiye

A.1.1.6. Release - *Deployment of Application*

The software was installed on the production environment provided by YTU and all the necessary final integrations with internal and external systems (ME-Learning, Projeler ve Fonlar), database and software setups, tuning and configurations was be completed on the twelfth month of the commencement of the contract.

RELEVANT DELIVERABLES:

- ✓ SMARTNET Platform operational
- ✓ System Integration Report (SI)
- ✓ Deployment Report (DR)

This project is co-financed by the European Union
and the Republic of Türkiye

Smartnet Üyeleri Ana Sayfa

Ana Sayfa / **Projeler ve Fonlar Smartnet Üyeleri Ana Sayfası**

Hoşgeldiniz

Sayın **Emre SMEKAL**, Smartnet üyeleri için özel hazırlanmış olan Projeler ve Fonlar'a hoşgeldiniz.

Burasi sizin ekraniniz. 🙌

Smartnet Projesi olarak siz değerli kullanıcılarımıza yurt içi ve yurt dışı proje ve fonlama olanakları için Türkiye'nin en detaylı proje ve hibe motoru olan **Projeler ve Fonlar** ile ortaklık sağladık.

Projeler ve Fonlar, tüm dünyada hibe veren kurum, kuruluş, vakıf, birlik ve organizasyonların yeni açtığı hibe programlarının duyurularını yaparak, proje geliştirme ve uygulama alanında farkındalık yaratarak binlerce kişi ve kuruma ulaşan bir Web Portalidir.

Projeler ve Fonlar:

- Günlük olarak Türkiye ve Dünya genelinde yaklaşık 1.500 veri tabanını filtreler.
- Günlük olarak dünyada 196 ülkeden, Türkiye'de 81 ilden hibe haberlerini filtreler.
- Faaliyetlerine başladığı günden bu yana 5.000'in üzerinde yurtiçi ve yurtdışı hibe yayımlamış ve arşivlemiştir.

Ekranınızda sizi neler bekliyor?

- **Açık Hibeler:** Başvuru tarihi açık olan Türkiye ve Dünya'daki hibelerin listelendiği alandır.
- **Detaylı Arama:** Türkiye ve Dünya çapında yayınlanan hibeleri farklı anahtar kelimelerle (açık/kapalı, sektör, ülke, dil, başvuru sahibi vb.) filtreleyerek görüntüleyebilirsiniz.
- **Proje Ortakları:** Sektör, kurum tipi ve ülke ile filtreleme yaparak potansiyel proje ortaklarınıza erişebilirsiniz.

Smartnet ekibi olarak her zaman sizinleiz...

- Sanayi/Sanayi Ürünleri
- Teknoloji/Teknolojik Gelişim

1. Dayanak

Bu destek çağrısı, Teknolojik Ürün Yatırım Destek Programı Yönetmeliği hükümleri uyarınca yürütülmektedir.

2. Çağrı Amacı

Elektrikli araçlar, içinde bulunduğumuz teknolojik gelişim ve dijital dönüşüm döneminin en önemli unsurlarından biri haline gelmiş durumdadır. Bu araçlar, karbon salınımının azaltılmasına katkısı sayesinde iklim değişikliği ile mücadele ve e-mobilite ekosisteminde oluşturduğu ekonomik etki bakımından önemini giderek artırmaktadır.

Elektrikli araçların yaygınlaştırılması ülkemiz için stratejik bir hedef olarak benimsenmiştir. Konvansiyonel içten yanmalı araçların yerine elektrikli araçların kullanımı, iklim değişikliği ile mücadelede kararlı yaklaşımını ortaya koymuş olan ülkemizin, bu alandaki hedeflerine ulaşmasında önemli bir katkı sağlayacaktır. Bunun yanında; elektrikli araçların yaygınlaşması, yeni gelişen bu alanda ana sanayi, tedarik sanayi ve katma değerli ürün ve hizmet geliştiren teknoloji ekosisteminin gelişimi için bir kaldıraç olacaktır.

Bir ülkede elektrikli araçların yaygınlaşmasında en belirleyici etkenlerden biri halka açık şarj olanaklarının seviyesidir. Bu husus tüketici yönelimleri ve tercihlerinde belirleyici konumdadır. Bu bakımdan, elektrikli araçlarda hedeflenen hızlı yaygınlaşmanın

A.1.3 Preparation of the Training Programmes and Release of the E-Learning Programme

TAT has prepared an E-Learning Module in the SMARTNET Platform to enable the entrepreneurs to receive the basic training modules before progressing to the advance trainings.

TAT has prepared virtual training content for 38 trainings under 4 modules and uploaded 38 training materials, online exams and 38 short videos of the trainings to the platform.

RELEVANT DELIVERABLES:

- ✓ Common manual for 38 training topics for capacity building training for entrepreneur and mentors
- ✓ 38 training modules designed for e-learning of entrepreneurs and mentors 38 videos for online entrepreneur training (On the e-learning module of the platform)
- ✓ Identification criteria of successful entrepreneurs after completion of each step of the commercialization acceleration programme
- ✓ Post training report template for trainers and mentors
- ✓ Training curriculum for entrepreneurs and mentors

A.1.4. Uploading and sharing of Best Practices

Data on best practices and success stories were collected, uploaded into the Smartnet platform and published through web portal of SMARTNET in order to maximize the visibility of new approaches and tools, to show other teams a clear path to success, to accelerate change management and buy-in and to multiply successes across an organization.

RELEVANT DELIVERABLES:

- ✓ Success stories of the entrepreneurs
- ✓ Content of the best practices online seminar
- ✓ Data of the TTIs

Best Practice: SWATCHLOOP
An innovative startup on sustainability and circular economy

Statement of the startup: "Swatchloop is an artificial intelligence-based waste management platform that performs more efficient recycling of bottle waste and increase the sustainability of recycling processes. Swatchloop is an artificial intelligence-based sustainable digital waste management platform aimed

WEBINAR - BEST PRACTICE I

Title	SWATCHLOOP
Moderator	Ufuk BATUM
Key-Speaker	Güneş SAYIT
Topic	<p>An innovative startup on sustainability and circular economy “Swatchloop is an artificial intelligence-based waste management platform that performs more efficient recycling of textile waste and ensures traceability and sustainability of recycling processes. It is an artificial intelligence-based sustainable digital waste management platform where stakeholders in all sub-sectors of textile are present, the wastes are classified according to their class, content and colour with technical data and uploaded to the system, providing circular economy and industrial symbiosis. The products it produces, its capacities, waste classes; recycling companies can define their technical infrastructure, the wastes they can process, their methods and capacities to the system. Technical data is collected to form the core of machine learning and for efficient recycling. Digital tracking and sustainability reports are created to support the reuse of wastes by recycling them more efficiently.”</p>
Date	: 09 June 2023

WEBINAR - BEST PRACTICE II

Title	: BIOLIVE
Moderator	: Ufuk BATUM
Key-Speaker	: Duygu YILMAZ
Topic	<p>: A research-based startup turning natural waste into value as industrial material.</p> <p>Statement of the startup: “Our team made the invention of Bioplastic from Olive Seed waste about 6 years ago. In our country, 500000 tons of olive seed waste pomace is produced globally every year. We started biopolymer production from olive pits 6 years ago and produced products for many sectors from automotive to electronics and food packaging. Our new invention is the production of vegetable leather with this polymer structure obtained from olive pit waste. Our vegan leather is much more cost-effective and has more filling materials than its competitors. In addition, in the field of sustainable textiles, we produce labels, buttons, hangers and accessories. We realized our vegetable leather invention with our business partnership, the Rebil Group team. In our country, we have customers and stakeholders from many different sectors. In this field, we designed vegetable leather and sustainable labels from olive pit waste with our customer, Rebil Group.”</p>
Date	: 23 June 2023

WEBINAR - BEST PRACTICE III

Title	:	BREN
Moderator	:	Ufuk BATUM
Key-Speaker	:	Çınar Laloğlu
Topic	:	<p>A fast growing, scalable startup reaching above USD 50+ million in 4-5 years.</p> <p>Statement of the startup: “One of the biggest problems of companies using steam technologies in their processes unnoticeable steam leaks and malfunctions. These critically important mechanical products malfunctions increase the production costs for the companies and pose serious risks for the companies forms. Mechanical engineering of companies using steam technology in the Bren textile sector by making their equipment smarter, companies' natural gas/coal costs are between 5-15%. It saves energy, equipment and time.”</p>
Date	:	14 July 2023

WEBINAR - BEST PRACTICE IV

Title	:	MYTH AI
Moderator	:	Ufuk BATUM
Key-Speaker	:	Özgecan ÜSTGÜL
Topic	:	<p>A high-tech SW company working on digitalization and efficiency.</p> <p>Statement of the startup: “We are digitizing a process that is completely human-dependent in the field of pattern production and design in the field of fashion and textile, which is not suitable for 4.0 industry systems, with technology. Thus, we put an end to long pattern design processes, reduce human dependence, save time and money, and offer institutions the opportunity to have unique and unique patterns.”</p>
Date	:	28 July 2023

WEBINAR - BEST PRACTICE V

Title	:	ILTEMA
Moderator	:	Ufuk BATUM
Key-Speaker	:	Ayhan PREPOL
Topic	:	<p>An interesting segmentation and fast-growing spinoff company from academia.</p> <p>Statement of the spinoff: “As a result of the work we started in 2015, we succeeded in producing fabric that heats up when we supply low-voltage electricity (0-48 volts). Some of the products we plan to produce will allow the production of new heater products as they allow working with batteries and battery support in the external environment. The fact that our fabric can be folded, cut and sewn will maximize its usage area. At the same time, low energy consumption will provide a lower cost heating opportunity. The products to be made using fabric have a wide range of applications such as automotive industry, wearable heated products, medical products, defence industry.”</p>
Date	:	11 August 2023

WEBINAR - BEST PRACTICE VI

Title	:	TechXtile Startup Challenge
Moderator	:	Ufuk BATUM
Key-Speaker	:	Pınar TAŞDELEN ENGIN
Topic	:	<p>An innovative business acceleration program by a TTI.</p> <p>Statement of the TTI: “UTIB International R&D Project Market Summit in Turkey Textile and Confection Industry”, which has been held since 2009 in order to support the textile and confection industry, which are among the most important exporting sectors of Turkey, and to contribute to the achievement of our country’s export targets, is a serious event with an innovative perspective. In 2019, it was transformed into an entrepreneurship program called “TechXtile Start-Up Challenge”. With this transformation, in the focus of ‘Value Entrepreneurships and Collaborations in Technology’; scalable, commercializable, and innovative projects compete and are supported.”</p>
Date	:	25 August 2023

Component 2

Pilot Implementation Of Acceleration Of Commercialisation And Accessing Funds

This project is co-financed by the European Union
and the Republic of Türkiye

A.2.2.1 Call for Proposals launched for the determination of Entrepreneurs and SMEs for Accelerator Programme

The pilot application of commercialization acceleration has started with a programme call. On March 28, 2023, the first call for entrepreneurs on the live system was initiated before scheduled in the work plan. The call was announced through social media accounts of the project as well. This was followed by the deployment and opening of the Mentorship Module on April 3 2023.

RELEVANT DELIVERABLES:

- ✓ 1 application call announced

This project is co-financed by the European Union
and the Republic of Türkiye

A.2.2.2 Training Programme

This activity is interconnected with the Activity A.1.3 where the definitions and content are given. The training programme content will be based on the Training Needs Assessment conducted in the Inception Phase.

The training programme will have **e-learning and classroom trainings**. The main aim of the programme will be to support/improve individual business skills of the entrepreneurs and to provide a base for identification of the potential of the commercialization of their products/business ideas.

This project is co-financed by the European Union
and the Republic of Türkiye

A.2.4. Feasibility Study of Establishing a National Angel Investment Fund

Under the scope of this activity, TAT prepared a feasibility study report that is based on the assumption that Yıldız Tekno will provide capital through offering to qualified investors in 2023.

RELEVANT DELIVERABLES:

- ✓ Feasibility Study of Establishing a National Angel Investment Fund (English and Turkish)

This project is co-financed by the European Union
and the Republic of Türkiye

Component 3

Communication and Visibility

This project is co-financed by the European Union
and the Republic of Türkiye

A.3.3.3 Managing and Cooperating with Media

TAT has organized 2 online events called **SMARTNET TALKS** in order to promote the Smartnet platform, inform the entrepreneurs regarding benefits the platform and the project will bring and inspire them with success stories from professional entrepreneurs. The events hosted key speakers from the entrepreneurship ecosystem and the Team Leader provided moderation during the events with relevant questions to the key speakers.
